

## Truck Tracking Facility

---

DFPCL is pleased to inform you, that for the convenience of customers, we have developed a web based tracking system for trucks taken at our Taloja plant and the corresponding invoice details.

Details such as Truck number, Billable party, Consignee name, Truck reported at DFPCL gate (date and Time), Invoice made (date), Truck left DFPCL gate (date and time) and other Invoice and DDA related data can be viewed online.

### How to use our website to check Truck Status

- You need to be an authorised user with a username and password to view the truck status at [www.dfpcl.com](http://www.dfpcl.com)
- Microsoft Internet Explorer 5 or greater and Screen resolution on the monitor to be set for 800x600 pixels for better look and feel is recommended.
- The site has two main options

#Dispatch Module and

# File Sharing

- Clicking the `Right Arrow' sign on the Dispatch box will display the login page.
- Type the User Name and Password and click on the `Submit' button. Data relating to the User name will be visible after the login to the site.
- If the typed User name and password is correct, a screen with Menu options for the "Truck status" application is displayed.
- The Menu options available for our Customers are displayed on the screen as follows

# Truck Status

# Dispatch

# Change Password

- The Truck Status tab displays the truck status at Taloja. Following data is available on the site.

SI No	Description
1.	Truck reported at Taloja gate
2.	Truck taken in side the gate
3.	Invoice prepared
4.	Truck has left the DFPCL premises

- The TruckStatus tab on the Truck Status application has one Sub Option for the present, others may follow on need basis

#### # Date wise dispatches

- The Dispatch tab on the Truck Status application also has one Sub Option at present.

#### # Date wise dispatches

- Select the required date from the calendar screen.
- Choose the required date range and click the "Submit" button on the screen. Data relating to the selected date range will be displayed.
- Clicking on first column will display other relevant details.
- Change Password tab allows Users to change the password as and when needed.

DFPCL also plans to introduce further features on the site in the near future. These include:

- Various summary reports
- User friendliness
- Look and feel
- Implementation at Ports, to display port dispatches.
- Display Party account extracts and outstanding statements
