

Carl Lindgren to join Deepak Fertilisers And Petrochemicals Corporation Ltd. as new President for the TAN Business

Pune October 10, 2012: Mr. Carl-Anders Lindgren has joined Deepak Fertilisers And Petrochemicals Corporation Limited as President and Technical Advisor for the Technical Ammonium Nitrate (TAN) business of the Company.

With over 25 years in the Ammonium Nitrate and Explosives industry globally, Carl's experience spans Business Development, Sales and After Sales Service, Technical Service and Logistics. He has worked extensively across Europe, Central Europe, Russia, and Africa.

Before joining DFPCL, Carl was Managing Director at Austin Europe, one of the world's largest explosive companies. He has also been the Managing Director of Yara AB in Sweden and has worked with the DYN0 Explosive Group, Atlas Copco and GECO (Geophysical Company of Norway). Carl has an MBA from the University of Uppsala, Sweden and MSc. in Oil Exploration from the University of Lulea, Sweden.

Stressing on Mr. Lindgren's experience and proficiency, Mr. Sailesh Mehta stated, "Carl brings with him extensive knowledge and international expertise on the technical aspects, as well as the domestic and global business development of the explosives business. TAN being a key area of focus at DFPCL, this appointment will strengthen and augment our position in this segment."

Carl said, "I am pleased to join DFPCL which is fast emerging as a world leader in Ammonium Nitrate. DFPCL is at an exciting phase of growth both in India and globally and I'm confident that the team and I can take the business to great heights."
