	EC Compliance Report dated 08.01.2015 (IPA and Gas Based Power Project)			
Sr. No.	Specific Conditions	Status of Compliance as per Letter from MoEF dated 23.09.2013.	Remarks	
1	The gaseous emissions (SO2, Nox, NH3 & HCI) and particulate matter from various process units shall confirm to the standards prescribed by authority. At no time the emissions shall exceed the the prescribed limits. Stack height shall be as per CPCB guidelines. In the event of failure of any pollution control system adopted by the unit, the unit shall be put out of operation until the desired efficiency has been achieved.	Partly Complied: It was submitted that emissions are within prescribed standards. Stacks are numbered & heights are as per CPCB guidelines & monitored regularly with help of third party monitoring. However, continuous monitoring system was not installed to ensure emissions are within limits at all times. Reports do not show any anomaly.	1) There is no stack in IPA Plant. 2) Gas Turbine stacks are regularly analysed by MOEF Recognised M/s Gadark Lab Pvt Ltd. Latest analysis reports attached at Annex 1	
2	AAQ monitoring stations shall be set up in the downwind direction as well as where maximum ground level concentrations are anticipated in consultation with the MPCB.	Complied . Three numbers of online Ambient air monitoring stations were installed & in operation as per NAAQMS norms and connected to MPCB control room as submitted.	Continued to maintain.	
3	Fugitive emissions in the work zone environment, product an draw material storage area shall be regularly monitored. The emissions shall confirm to the limits imposed by SPCB / CPCB.	Partly complied: PA has submitted that fugutive emissions are being monitored regularly and confirmed within SPCB/CPCB norms. The monthly reports, as submitted, were not found in conformity with condition. However, sensors were installed for ammonia, chlorine, IPA & hydrocarbon & readings of LEL were taken as fugitive emissions.	1)Ten On line detection sensors for hydrocarbon leak sensing are mounted in IPA Plant and storage area. Location report attached as Annex:2. Any leak identified is taken care on top priority. 2) LEL sensors are fixed at GT3,4 & 5 for leak detection.	
4	Total water requirement should not exceed 2800 m3/day as per permission accorded by MIDC. Further, efforts shall be made for further conservation of water and utilization of waste water.	Complied: It was observed from the records & learnt during the visit that consumption of water is within limits.	Continued to maintain.	

		<u></u>		I
1	5	The effluent generation shall not exceed 667	Complied : It was observed from records & learnt	Continued to maintain.
		m3/day. All the effluent shall be treated in the	during the visit that generation of effluent is	
		ETP and shall be monitored for the pH, SS, TDS,	within limits. The monitoring reports, as	
		O & G, BOD, COD, Phosphates & ammonical	submitted, do not show any anomaly.	
		Nitrogen & other relevant parameters. All the		
		treated effluent shall be sent to CETP at Taloja		
		for further treatment. The domestic efflluent		
		shall be treated in the existing Sewage		
		Treatment Plant.		
	6	The company shall undertake following Waste	Partly complied: Although PA has claimed that	As noted metering and control of
		Minimisation measures: *	condition is complied. However, it was observed	active ingredient is already in
		Metering and control of quantities of active	that certain measures like, Metering and control	place. Moreover the company has
		ingreditents to minimise waste *	of quantities of active ingredients, Metering and	taken detailed exercise in reuse of
		Reuse of by-product from the process as raw	control of quantities of active ingreditens, close	waste/byproducts
		materials or as substitutes in other products. *	feed system, use of high pressure hoses for	1) Sale of DIPE since 2006.
		Use of automated filling to minimize spillage *	equipment cleaning etc. have been implemeted.	2) DM plant alkaline regeneration
		Use of close feed system into batch reactor *	Indeed, no comparative details for minimization	water is recycled to cooling tower.
		Venting equipment through vapour recovery	of generation of waste reuse of by-products etc.,	(Since 2011).
			were made available.	3) Process effluent from IPA plant
		high pressure hoses for equipment cleaning to		after treatment in a areobic
		reduce waste water generation		digester is recycled as Cooling
				tower make up . 4)Propane
				is recovered from propylene
				supply, which is sold as
				byproduct.
				5)Steam is recovered in HRSG
				system from all GTs
				system nom an Grs

	7	The solid waste generated in the form ETP	Partly Complied: PA has submitted that ETP	Submission Receipt and Form 4
		sludge shall be stored in HDPE lined secured	sludge is disposed at TSDE as per condition and	submitted to MPCB (Hazardous
		landfill at the site. Spent catalyst and used oil	spent cataluyst and used oil shall be sold to	Waste Returns for 2013-14) is
		shall be sold to authorised re-processer.	authorised re-processor. However, details were	attached as Annex:3
			not submitted	
	8	The PA shall strictly comply with the rules and	Partly Complied: It was submitted that provision	In case of Emergency, Escape
		guidelines under MSIHC Rules, 1989 as amended	of MSIHC Rules have been followed. Sensors were	Routes are identified towards
		in October, 1994 and January 2000 and HWMH	installed for ammonia, chlorine, IPA &	assembly points. Boards displayed
		Rules, 2003 as amended from time to time.	hydrocarbon emission. On-site emeergency plan	on the roads at various locations.
		Authorisation from the SPCB shall be obtained	has been prepared as submitted. But, escape	
		for collection, treatment, storage and disposal	route was not identified. PA has obtained an	
		of hazardous wastes.	autorisation under HWMH Rules.	
	9	Company shall develop surface/roof top rain	Not Complied. PA has not complied this condition.	Proces of Implementation of Roof
		water harvesting structures to harvest runoff		Top Rain Water Harvesting is in
		water for recharge of ground water.		progress.
	10	Development of green belt area (25%) of the	Partly Complied. PA has claimed that 33% of	Green development and
		plant area to mitigate the effcts of fugitive	available open land is under green cover.	plantation photograph,
		emission all around the plant. Development of	However, it was obsreved that development of	expenditure, survival and species
		green belt shall be as per CPCB guidelines.	green belt is unsatisfacotry although few hundred	details are attached Annex:4
			splings have been grown. GB development plan	
			was submitted after the visit. Other details such as	
			expenditure, survival rate, species names etc.,	
			were not submitted.	
П	11	Occupational health surveillance of the workers	Complied: It was submitted that all the	Continued to maintain.
		shall be carried out on regular basis and records	employees have been provided medical fcilities as	
		shall be maintained as per the Factories Act.	per Factories Act.	
	Sr. No.	General Conditions	Status	

1	PA shall strictly adhere to the stipulations made by the MPCB	Partly Complied. The production, consumption of water & generation of effluent were found within limits as per reports submitted. However, submission of quantitave details of generation & disposal of HW, water balance, monitoring mechanism and six monthly compliance reports were not in accordinance of conditions.	1) Generation and disposal of Haz Waste report attached in Annex3 2) Cess return copy attached as Annexure 5 showing details of water balance of consumption & effluent generation which is much below the MPCB consent limit. The above items are monitored and monthly reports are submitted regularly to MPCB.
2	At no time the emissions shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be put out of operation until the desired efficiency has been achieved.	Partly Complied. Although monitoring of stacks & AAQ have been carried out regularly but online monitoring are not carried out to ensure emission within limits at all time.	There is no stack in IPA Plant. Periodic testing of Gas turbine Heat Recovery and Steam Generation stacks by third party (MoEF Approved) is carried out. Reports attached as Annex:1
	No further expansion or modification in the plant should be carried out without prior approval of this ministry. In case of deviation in the project, a fresh reference shall be made to the ministry to assess the adequancy of conditions imposed.	Agreed to Comply. PA has assured to abide by the condition.	Noted and being followed.
	The overall <u>noise levels</u> in and around the plant area shall be kept within the standards by providing noise control measures including acoustic hoods, silencers, enclosures, etc. The ambient noise levels shall conform to the standards prescribed under the EP Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (nitht time).	Complied. The monitoring reports do not show anomaly.	Continued to maintainNoise level measurement reports attached as Annexure-5 (a)

5	The PP shall also comply with all the environmental protection measures and safeguards proposed in the EIP / EMP report.	Partly Complied. Although PA has claimed that condition is complied but monitoring of fugitive emissions, rainwater harvesting, online monitors are yet to be achieved.	1) For control of fugitive emmissions on line leak detectors Hydrocarbon/LEL are placed at strategiec locations in IPA Plant: 10 Locations and Gas turbine area one each. Ref Annex;2 2) Proces of Implementation of Roof Top Rain Water Harvesting is in progress. 3) On line monitors for NOx are fixed in Nitric Acid plants.
6	A separate Environmental Management Cell equipped with full fledged laboratory facilities shall be set up to carry-out the Environmental Management and Monitoring functions.	Complied : It was submitted that EMC has been functional at site which is headed by DGM.	Continued to maintain.
7	The PP shall earmark adequate funds to implemnet the conditions stipulated by the Ministry of Envornoment and Forest as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall	Partly Complied. It was submitted that fund is utilised for implementation of evnvironmental safeguard but details were not submitted	Budget and expenditure for EHS function is attached as Annex: 6
8	The Company shall undertake welfare meansures and community development measures for the local people in the vicinity of project area.	Partly Complied: IT was submitted that CSR activities ware carried out thorugh Ishanya Fondation Trust for rural development, women employment, health & education),. However, details were not submitte.d	CSR report copies for years 10-11, 11-12,12-13 and 13-14 attached as Annex:7

9	The implemnetation of the project vis-vis environmental action plan shall be monitored by the concerned Regional Office of the Ministry / SPCB / CPCB six monthly compliance status reports shall be submitted to monitorig agencies.	Not Complied : Six monthly compliance reports were not submitted.	Six monthly compliance reports are being sent to state and central MOEF office. Annexure 8 - Last four reports submitted to MOEF (acknowledgement copies) are attached.
10	The PP shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the letters are available with the SPCB / Committee and may also be seen at website of the Ministry at http://envfor.nic.in. This shall be advertised within seven days from date of issue of the clearance letter atleast in two local news papers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and the copy of the same shall be forwarded to ministry.	Complied. PA has advertised regarding grant of EC as per the condition and copies have been submitted to the Ministry.	Continued to maintain.
11	• •	Not Complied . PA has not submitted details of financial closure and approval as per the condition.	submitted through DATA Sheet, copy attached as <u>Annex 9</u>
12	The Ministry may revoke or suspend the clearnace if implementation of any of the above condiitions is not satisfactory.	Agreed to Comply : PA has assured to abide by this condition.	Noted and being followed.

14	The Minstry reserves the right to stipulate additional conditions, if found necessry. The company in a time bound mannenr will implement these conditions. The above conditions shall be enforced, interalia under the provisions of the Water (Prevention and Control or Pollution) Act, 1981, the Environment (Protection) Act, 1986,	Agreed to Comply. PA has assured to abide by the condition. Complied. It is evident from the above that the implentation of envoronmental safefuards need sincere efforts. Moreover, submitssion of analytical reports and compliance needs	Noted and being followed. Continued to maintain.
	Hazardous Wates (Management and Handling) Rules, 2003 and the Public Liability Insurance Act, 1991 along with their amendments and rules.	attention. PA has obtained a policy under PLI Act as submitted.	
1	Periodic monitoring of ground water shall be undertaken and results analyzed to ascertain any change in the quality of water. Results shall be regularly submitted to the Maharashtra Pollution control board.	Not Complied. Although PA has claimed that condition is being followed but neither location were shown during the visit nor were analytical reports of ground water and its periodicity submitted.	Ground water is analysed periodically. The analysis has not shown any variation in water quality. The latest reports are attached for your kind reference. Annex 10
2	The company shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling.	Complied . It was submitted that adequate measures have been taken to prevent possible fire hazards.	Continued to maintain.
3	Regular mock drills for the on-site emergency management plan shall be carried out . Implementation of changes/improvements requried, if any, in the onsite management plan shall be ensured.	Partly Complied. Although on-site emergency plan has been pepared and mock drills are conducted as submitted but reports were not submitted. Moreover, escape route leading to assembly points was also not identified and marked at ground level.	Mock drills for On site emergency are conducted regularly. Report of such exercise are submitted to Directorate of Industrial Safety And Health (DISH). The latest four reports are attached. Annex 11

4	A copy of the clearnace letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions / representations, if any were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Complied . It was submitted that EC has been uploaded on the wbsite of the company any meeting for local NGOs and social workers were arranged for local partticipation on environmental awareness.	Continued to maintain.
5	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO2, NOX (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient placelocated near the main gate of the company in the public domain.		DFPCL Website is updated with compliance reports including analysis reports. Ambient air monitoring stations not only have a display at Factory gate, but it is also linked to MPCB server. Annex-12

6	The environmental statement for each financial
	year ending 31st March in Form V as is
	mandated to be submitted by the project
	proponent to the concerned State Pollution
	Control Board as prescribed under the
	Environment (Protection) Rules, 1986, as
	amended subsequently, shall blso be put on the
	website of the company along with the status of
	compliance of EC conditions and shall also be
	sent to the respective Regional Offices of MoEF
	by email.

Partly Complied. It was verified that PA has not uploaded Environmental Statement for financial year ending 31st March in Form V as per condition. on MPCB website on 22nd Moreover, EC compliance without analytical reports which were recently submitted to the ministry has been uploaded.

Environmental Statement in the form V for 2013-14 is submitted September, 2014. Status of Compliance of EC alongwith analytical reports is being despatched to Regional Office Bhopal. Statement copy attached as Annex 13
