Dear Sirs,

Sub: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015

Further to our last message dated 27th March 2020, our Fertiliser plants namely, ANP & NPK have been limping back gradually to operations. Our TAN, IPA and Ammonia plants have been continuing near normal operations. In case of Weak Nitric Acid, the downstream industry continues to reel under the Covid-19 lockdown and has impacted its production other than for its captive use. The Dahej facilities are limping back gradually to operations. We continue to struggle through the challenges of low availability of contract workmen, truck/drivers etc, which have been intermittently impacting the Supply-Chain and thus the operations.

Our operations have implemented strict measures for Covid-19 checks, disinfectant sprays, medical check-ups and counselling.

We look forward to gradually bouncing back to normalcy once the lockdown is removed and the Supply-Chain as well as the downstream industry also bounce back.

Kindly take the above on record.

Thanking you,

Yours truly,

For Deepak Fertilisers and Petrochemicals Corporation Ltd
