Dear Sir/ Madam,

Sub: Intimation under Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015.

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed copies of newspaper advertisement(s) published in Financial Express and Loksatta on November 26, 2020, *inter-alia*, with regard to the completion of electronic dispatch of notice of Postal Ballot to the shareholders of the Company and instructions for remote e-voting.

This intimation will also be uploaded on the Company's website at www.dfpcl.com

We request you to take the same on your record.

Thanking you,

Yours faithfully,

For Deepak Fertilisers

And Petrochemicals Corporation Limited

Gaurav Munoli

Company Secretary and Compliance Officer

COVID GUIDELINES

Local restrictions like night curfew allowed by MHA

Prior consultation with Centre must for any lockdown, contact tracing within 72 hours

PRESS TRUST OF INDIA
New Delhi, November 25

AMID A SPURT in coronavirus cases in some regions, the Centre on Wednesday said states and union territories can impose local restrictions like night curfew to check the spread of Covid-19 but made it clear that they will have to consult it before imposing any lockdown outside the containment zones.

Caution" for December, the MHA said the main focus of the directive is to consolidate the substantial gains which are visible in the steady decline in the number of active cases in the country.

The guidelines said that keeping in view the recent spike in new cases in a few states and UTs, ongoing festival season and onset of winter, it is emphasised that to fully overcome the pandemic there is a need to maintain

caution and strictly follow the prescribed containment strategy. The containment strategy should be focussed on surveillance, containment and strict observance of the guidelines and SOPs issued by the MHA and the Ministry of Health.

"States and UTs, based on their assessment of the situation, may impose local restrictions, with a view to contain the spread of Covid-19 such as night curfew. However, state and UT governments shall not impose any local lockdown (state/ district/ sub-division/City level), outside the containment zones, without prior consultation with the central government," the guidelines said. The guidelines will be effective from December 1 to December 31.

'Late hospital admissions, pollution behind surge in death cases in Delhi'

LATE HOSPITAL ADMISSIONS leading to Covid-19 cases turning critical, shortage of ICU beds, unfavourable weather and rising pollution are among the factors, experts attribute to the spike in Covid-19 deaths in Delhi.

Delhi's Covid-19 fatality rate has increased to 1.89% as against a national average of 1.46%. The city has been reporting the highest number of coronavirus cases and fatalities for the last few days.

Going by the epidemiological trend, the severity of the disease is more in this phase of the pandemic compared to the last one and several factors, including weather and pollution, are contributing to it, a health ministry official said.

Cargill eyes corn-to-ethanol units in India

FE BUREAU
New Delhi, November 25

CARGILL INDIA IS keen to invest in facilities to produce ethanol out of corn but would wait for a clear policy on the green fuel, as the current schemes of the government are "skewed in favour of sugar mills", according to a senior executive of the company.

An unbiased ethanol policy may help the government to achieve diversification to corn from water-guzzling paddy and sugarcane and also help farmers to increase their income due to sustainable demand.

"We are producing ethanol out of corn in the US and it is a big part of our business there. We are looking at opportunities here, depending on the government policy," Cargill India's president Simon George told *Financial Express*. He said the company would take a call after assessing how attractive is the ethanol policy once it is announced. The all-India weighted average price of corn was ₹1,307/quintal during October 1-November 24, which is nearly 30% lower than its minimum support price (MSP).

Guj Oxygen plants may have to reserve 50% output for medical use

FE BUREAU
Ahmedabad November 25

OXYGEN PLANTS IN Gujarat may have to reserve 50% of their total production exclusively for medical use as the state government is mulling to revise the order to ensure seamless supply of liquid oxygen to hospitals and medical institutes engaged in the treatment of Covid-19 patients.

Earlier this year, the state government had issued an order for industrial oxygen producers to keep 50% of their production for medical use, said a senior official in the industries and mine department, adding that post Diwali again Covid-19 positive cases were increasing and if per day liquid oxygen demand would go beyond 200 tonne, the government may think of revising the order.

Around 80 oxygen plants functioning in Gujarat have installed capacity to produce nearly 900 metric tonne per day. Of these 30 plants are supplying oxygen for medical purposes only. Before the outbreak of pandemic, use of oxygen for medical purposes was limited.

It is only after the outbreak, suddenly demand for oxygen in the medical field surged 7-10 folds. In the peak of the pandemic earlier this year, it was as high as 240 tonnes per day.

Following restrictions and different measures taken by the state government, the number of cases started decreasing after August, which resulted in a decline in oxygen demand for medical use.

Before Diwali, the demand for oxygen was as low as 100 to 120 tonne per day. After Diwali again, Covid cases have started surging and so has the demand of oxygen for medical use.

If sources in Gujarat's Food and Drug Control Authorities (FDCA) are to be believed, the current requirement of oxygen for medical use has gone as high as 170 tonne per day.

When contacted FDCA commissioner Dr Hemant Koshia claimed that following recent measures by the state government, again Covid cases have started stabilising and hopefully demand of oxygen would also stabilise subsequently.

'India loses sugar export scope of 20L tonne'

NANDA KASABE
Pune, Nov 25

SUGAR EXPORTERS FROM Maharashtra said the country has lost export opportunity of at least 20 lakh tonnes due to the delay in the announcement of the subsidy by the Centre. The delay has prompted millers to agree to export contracts without the support of government subsidies. The sugar sector has contracted exports for around 10,000 tonnes and the push to export has started, Rahil Shaikh, MD, MEIR Commodities said. Exports from India have begun in a small way to Afghanistan and Sri Lanka, he said. In 2020-21, India is expected to produce 315 lakh tonnes of sugar as against 272 lakh tonnes in the previous season. There is a global tightness in the market and India is sitting on surplus sugar stocks.

One cooperative mill in Maharashtra has written to the Centre stating that the mill has contracted a deal for 2500 tonnes under the Open General Licence (OGL) at ₹30,000/tonne ex-factory and wanted to know if the supply of OGL sugar for export would be outside the monthly release order (monthly quota to sell sugar in the domestic market).
